Check in at dive shop to fill paperwork and pick up materials. Pick up Padi Advanced Open Water Diver Course DVD. Read course manual chapters of dives you are completing. Deep and Navigation are required if you are completing Advanced Open water course. Please also choose three electives and complete knowledge reviews. It is a good idea to have an extra chapter or two read and knowledge reviews filled out in case conditions aren't favorable for one of your dive choices. Knowledge reviews **MUST** be completed before doing dives.

(This is the home study portion of the course. You are of course welcome to use the classroom facilities at our dive center.)

Please note that this is only an outline of the Padi adventures and advanced open Water Diver Courses. You do not need to complete everything in four days! This is the minimum time required. Time permitting, students may prefer to extend the course over more days, take a break between boat dives. Diving is a fun activity, so we want you to set your own pace, a schedule that works best for you. Our classes are always small, no more than six students, so everyone gets lots of attention - in and out of the water!

If you have any questions about the Padi adventures or advanced open water course, please ask!
